About ClearPath Orthocare Australia

ClearPath has successfully completed a number of clinical trial cases before introducing it for clinical use and these have proven to be highly successful in correction of a variety of malocclusions including mild & moderate cases.

ClearPath was established in 2007. We have over 9 years of experience in the field of clear aligners.

ClearPath provides an exciting new improved quality aligner through its unique process. Our mission is to deliver high quality, affordable, clear orthodontic aligner solutions to the global market. **ClearPath** aligner provides a hygienic convenient and a clear solution to the correction of malocclusion without having to wear brackets and wires.

ClearPath introduces a breakthrough technology, which revolutionizes the way we treat malocclusion (straighten the teeth).

ClearPath provides **“complete case treatment with new improved quality Aligners”** through its unique proprietary process which provides a hygienic, convenient and a clear solution for the correction of malocclusion **“without having to wear brackets and wires”**.

Following are the steps to get ClearPath Aligners for your patients

Case selection for ClearPath Aligners

- Select an appropriate case for ClearPath aligners.
- You can email intra-oral photos / extra-oral photos or pictures of cast model at following address and our clinical team will give you free consultation, if your selected case can be treated with aligners or not.
freecasereview@clearpathortho.com.au

Case Records include

1. Upper and Lower Putty-Wash impressions
2. Bite registration
3. Filled Diagnostic & Treatment form. You can download it from www.clearpathortho.com.au or request by sending email at info@clearpathortho.com.au
4. Photos:
