ClearPath IMPROVING SMILES

FREQUENTLY ASKED QUESTIONS

What is an aligner?

An aligner is a custom made medical grade clear plastic tray that fits over your teeth and straightens them.

Is aligner a new appliance?

No it's not a new appliance. Millions of people have already been treated with aligners in developed countries like USA, UK and other European countries and their number is increasing everyday.

I am wearing braces can I switch to aligners?

Yes you can. Please ask your ClearPath certified doctor for further details.

How does it work?

Each aligner moves teeth a little bit by exerting pressure on them.

How many aligners are required to straighten my teeth?

It depends on the severity of the problem. Your doctor can tell you approximate number of aligners.

Is there any age limit for aligner treatment?

It's an adult orthodontic treatment hence there is no age limit.

How frequent do I need to visit my doctor while using aligners?

Your number of visits and duration of visits are significantly reduced, as it eliminates hefty work of changing wires and brackets.

How much does the aligner treatment cost?

It depends on the severity of the problem and since it's an advanced product involving laboratory process, still ClearPath aligners prices are highly competitive as compared to the others brand available in the market. Your doctor can give you exact cost for your case.

In case of further questions, please contact your ClearPath certified doctor.

WHAT IS ClearPath?

ClearPath is a clear and simple substitute for braces. No brackets. No wires. Just a series of customized removable aligners that gradually straighten your teeth as you wear them, with each set of aligners moving your teeth bit by bit by applying mild pressure on them.

FOUR EASY STEPS TO GET YOUR ClearPath ALIGNERS:

- 1) First step is to find your nearest ClearPath certified doctor who will provide you all the details and answer all your queries about ClearPath aligners.
- 2) Then your teeth impressions, X rays and photos are taken by the Doctor and sent to ClearPath besides the prescription form.
- 3) ClearPath provides you a digital setup with the help of which you can envision the final outcome of the treatment.
- 4) Once your doctor gives the approval, we start manufacturing your aligners, which are sent within two weeks.

HOW DOES IT WORK?

Once the aligners are received, the process is very simple

Think of these sticks as your teeth. You wear first aligner and it moves them a little bit.

Then you wear your next aligner and it moves them a little bit more.

You keep on wearing your aligners in sequence under the supervision of your doctor and you will get a perfect smile!

IS IT RIGHT FOR YOU?

Your lifestyle and smile are both equally important, so why exchange one for the other?

ClearPath ALIGNERS ARE

Customized: Specially made for your teeth.

Hygienic: Easy to clean teeth & keeping good oral hygiene.

Removable: Eat what you want, then brush and floss.

Clear: Most people won't even notice you are in treatment.
